The WiMu Guide for WiMu families

All you need to know to experience WiMu fit for families

But is the WiMu suitable for families ?

Of course !!
Even for those with small children.
It is poetic, sometimes even a bit magical.
You can learn a lot of interesting things

What is WiMu ?

Wi.Mu. is the short name for Wine Museum.

But Wi.Mu is a very special place:
It doesn't have a collection of objects, artifacts, or works of art.

It proposes a journey in the world of wine: from hall to hall you learn a lot of things, especially about the relationship human being - wine.

A relationship that began in prehistory, still continues and has inspired many myths, traditions, works of art and designed entire landscape, just like those of the Langhe.

and What about the castle ?

The castle hosts WiMu.

Its origins are very ancient, but as for many castles in the region, during its thousand-year history it has been renovated several times.

Its current appearance dates back to the mid of the XIX century.

It can be said that this majestic building has lived four lives, each linked to one of its usages.

1 At first
It did its military service

It was built up to spot the enemies and to organize the defenses.

2 Then it was transformed into a real castle, to live in.

3 Later It became a college:
It was used to go to school

4 and inside, today, Wi.Mu is set up

and What you can do

You can visit.

You can even play with It !!!

But how does WiMu work

You visit four floors, starting from the top.

First you climb to the top and then you down along the stairs.

Always available

and suitable for families with children from 6 to 12 years old

Wi.Mu.Notes

It is a leaflet that reports on the most interesting and curious contents about the Museum.

So during the visit you can be a guide to the adults.

And after the visit you take it home as a souvenir.

Esploramuseo

It's a kit where you can find sets of questions and trivial quizzes, so the visit turns into a fun game to do with the rest of the family.

At the end, check how good you have been and if you deserve the certificate of licensed explorers.

What if the baby needs to be changed

No panic !

Before the visit you can use the changing table at the ticket office.

During the visit the one at the 2 ° floor, next to room 13.

What about the stroller

You can park it in the entrance, in the designated space.

Or you can use It: in in this case you ask the staff how to use the lift.

And If he is hungry instead

All under control !

Stop at the *mum's space*, always at the 2° floor, next to room 13:
a little place, but quiet, with a comfortable seat for mom, the changing table and the toilet.

We are waiting for you !
